

To whom it may concern...

I can't believe it is possible, that government and lobbyists, can stifle Competition. Competition is what makes better products and service happen!

Government hinderance of the legal transmission of these services (XM Radio) would be illegal and unethical. As I would recall, "the legal right to send and receive radio signals"

I'm tired of special interest groups and the government entities that support them with my TAX dollar.

Sincerly: Troy M Magee
